

How do I require completion of a Lessons item?

Most of the items that can be added to a Lessons page can be made "required." That is, students must open (if the item is a resource) or complete (if the item is a forum posting, quiz, assignment, question, comment or student page). Further, the Lessons tool allows instructors to require students to complete one item in the list before allowing access to other items in the list.

Go to Lessons.

If you titled your page something other than *Lessons*, select the title of the page as it appears in your Tool Menu.

Click Edit for item that will be required.

Check Require that the student submit this assessment, then click Update Item.
