

How can an instructor retrieve assessments that were saved but not submitted?

When a student clicks the **Submit for Grading** button on the last page of an assessment or the *Table of Contents*, they are taken to an *Assessment Submission Warning* screen to confirm their submission. If they do not click the final **Submit for Grading** button to confirm, and the assessment is NOT timed, their responses may be saved, but the assessment will remain *In Progress*.

Instructors do not have access to the content of *In Progress* assessments. On the [Total Scores](#) screen, students with incomplete submissions would be listed as having *No Submission* recorded.

However, if a student has not yet submitted a copy of an untimed assessment, an instructor can retrieve their submission using the **Automatic Submission (Autosubmit)** feature in *Tests & Quizzes*.

Note: The autosubmit option is only available if it has been enabled on your system.

How does automatic submission work?

The **Autosubmit** setting can be enabled on a per-assessment basis and is unchecked (not enabled) by default. For more information on how to enable automatic submission in an assessment's settings, see [Availability and Submissions options: Automatic submission](#), or the steps below.

Behind the scenes, there is an automated process that will check:

1. Did the instructor select the **Autosubmit** setting on this assessment?
2. Did the **latest acceptance date** for this assessment pass yet?
3. Did this student press the **Begin Assessment** button, save their work, but fail to successfully submit the assessment via the **Submit for Grading** button on the *Assessment Submission Warning* screen?
4. Is this the student's first submission attempt?

If all four conditions above are true, the system will automatically submit the student's saved assessment. The submission data will be available to instructors on the [Total Scores](#) screen within 5 minutes (or however often your system is configured to run) after the **latest acceptance date** passes.

Instructors can review all student submissions normally. Any assessments that were submitted via the automatic submission feature will be flagged on the *Total Scores* screen with the text

AUTO-SUBMIT. All answers that were saved will be included in the student's automatic submission.

Note: Timed assessments are automatically submitted when the timer expires, so you do not need to enable Autosubmit for a timed assessment.

How do I enable Autosubmit on an assessment?

Go to Tests & Quizzes.

Select the **Tests & Quizzes** tool from the Tool Menu of your site.

Edit the settings.

From the Tests & Quizzes tool home screen, choose the **Settings** option in the drop-down menu for the quiz. Be sure that you are in the **Drafts** view.

Note: You can review and edit settings on a published assessment by going to the **Published-All** view and selecting **Settings** in the drop-down menu for the assessment. It is not recommended to modify the settings of an assessment while testing is in progress, as it may cause loss of student submission data.

Alternatively, you can access assessment settings from the edit assessment screen.

Autosubmit Autosubmit saved student work after latest acceptance date

Question Scores: Show question point value during assessment Hide question point value during assessment

In an assessment's *Settings*, select the **Availability and Submissions** section.

1. Make sure that the **due** and/or **late submissions accepted** date fields have dates entered in them. If you do not want to accept late submissions, select **No, not after due date**. Assessments will be automatically submitted at the **latest acceptance date**.
2. Select the check box to **Autosubmit saved student work after latest acceptance date**.

Save Settings and publish the assessment.

When the assessment settings are ready, and the questions are in place, click **Save Settings and Publish** to publish the assessment so that your students can take it. See the article [How do I publish an assessment \(i.e. test or quiz\)?](#)

Alternatively, if you're not ready to publish the assessment, you can click **Save** to save your settings selections.

*Note: If you're modifying the settings of a **Published** assessment, you'll only see the Save and Cancel buttons.*

How do I trigger Autosubmit on a completed assessment?

If you did not enable **Autosubmit** before students began taking an assessment, some students' submissions remain *In Progress*, and those students have not already submitted a copy of the assessment, you can edit the *Settings* on the published assessment to trigger an automatic submission and access any responses they saved.

Go to Tests & Quizzes.

Select the **Tests & Quizzes** tool from the Tool Menu of your site.

Select the Published-All View.

Title	Status	In Progress	Submitted	For	Open	Due	Last Modified	Modified Date ▾	Remove?
Quiz 2 Actions ▼	Published - Active	1	<u>2</u>	Entire Site	2019-01-19 16:00:00	2019-03-02 18:00:00	ktinstructor	2019-02-17 17:12:46	<input type="checkbox"/>

You might still see *In Progress* assessments after you enabled **Autosubmit** AND waited for about 5-10 minutes (or however often your system is configured to run) after the **latest acceptance date** if:

1. The assessment allowed multiple submissions, or a student was [allowed to retake](#) the assessment. A student who already submitted the assessment started a new submission but did not complete it. The Automatic Submission process will only submit a student's assessment if they do not have any previous submissions already recorded for that exam. This prevents previous, already successful, submissions from being overwritten by an automatic submission.
2. Very rarely, there have been instances where the Automatic Submission feature has not completed submitting an assessment. If your assessment should have been automatically submitted, but it has not, follow the steps above to [trigger Autosubmit again on the completed assessment](#).

How do automatic submissions display?

Delete	Name	UserID	Role	Submit Date	Score	Adjustment	Final Score	Comments for Student (What's This?)
X	Johnson, Steven	student02	Student	02/17/2019 05:13:52 PM	6	<input type="text" value="0.0"/>	6	<input type="text"/> <input type="button" value="Add Attachments"/>
X	Martin, Eri	student03	Student	02/17/2019 05:17:54 PM AUTO-SUBMIT	2	<input type="text" value="0.0"/>	2	<input type="text"/> <input type="button" value="Add Attachments"/>
X	Thompson, Mary	student01	Student	02/17/2019 05:13:15 PM	6	<input type="text" value="0.0"/>	6	<input type="text"/> <input type="button" value="Add Attachments"/>

Instructors access automatic submissions from the [Total Scores](#) screen just as they would any other assessment submission. However, automatic submissions display differently from manual or timer submissions as follows:

1. When an automatic submission occurs, the [email notification sent to students and/or instructors](#) will contain *Notification for assessment auto submission*. The *Submitted Date* in the email notification indicates when the student last saved content in the assessment. The time stamp on the email that was sent will indicate when the actual submission occurred.
2. On the [Total Scores](#) screen, automatic submissions are flagged with the text *AUTO-SUBMIT*. The time stamp that appears in the *Submit Date* column for automatic submissions indicates when the student last saved content in the assessment, NOT when it was actually submitted by the Automatic Submission feature.
3. In the *Tests & Quizzes Event Log*, the *Errors* column will indicate *No Errors (Auto submit)*. The *Date Submitted* column will indicate when the actual submission occurred. The *Duration* column will indicate how much time elapsed between when the student began taking the assessment and when it was actually submitted; it does NOT indicate how much time the student actually spent taking the assessment.

Below are examples displaying automatic submissions.

Example of email notification for Automatic Submission

In the event of an automatic submission, the time stamp on the notification email sent to a student and/or instructor is *when the actual submission occurred*, while the *Submitted Date* in the email is the *last time the student accessed the assessment*.

The subject of the email for an automatic submission will say: *Notification for assessment auto submission: [the title of the site where the assessment was taken] - [the assessment title]*

The first line of the email notification will include the text: *The following assessment auto submission was recorded.*

For more information on *Tests & Quizzes* email notifications, see [What information is in a Tests & Quizzes email notification?](#)

Examples of automatic submissions on the Total Scores screen

1. When an instructor accesses the *Total Scores* screen to grade the assessment, automatic submissions are flagged with the text *AUTO-SUBMIT*.
2. The time stamp that appears in the *Submit Date* column for automatic submissions indicates when the student last saved content in the assessment, NOT when it was actually submitted by the **Automatic Submission** feature.

For more information on accessing student submissions and grading, see [How do I grade Tests & Quizzes?](#)

Examples of automatic submissions in the Event Log

<u>Title</u>	<u>Assessment ID</u>	<u>Name</u>	<u>Entry Date</u> 2	<u>Date Submitted</u>	<u>Duration</u> 1	<u>Errors</u>
Quiz 2	13	Martin, Erin (student03)	02/17/2019 05:15:16 PM	02/17/2019 05:21:58 PM	7 minutes	No Errors (Auto submit)
Quiz 2	13	Johnson, Steven (student02)	02/17/2019 05:13:36 PM	02/17/2019 05:13:53 PM	1 minute	No Errors (User submit)
Quiz 2	13	Thompson, Mary (student01)	02/17/2019 05:12:58 PM	02/17/2019 05:13:16 PM	1 minute	No Errors (User submit)

1. In the *Tests & Quizzes Event Log*, the *Errors* column will indicate *No Errors (Auto submit)*.
2. The *Date Submitted* column will indicate when the actual submission occurred.

For more information on the *Event Log*, see [What is the Tests & Quizzes Event Log?](#)
