Update Points

After selecting **True False** from the drop-down menu, the program will open additional options for the question.

Set the point value for the question.

Answer Point Value

1.0

Enter the point value for this question. Questions may be worth any point value you choose.

Tip: Keep in mind that the point value of all the questions in the assessment will equal the point value of the assessment in the Gradebook. So if you want your assessment to be worth a total of 100 points, you should assign point values to your questions accordingly.

Display points?

Display Point Value while student is taking the exam

☒ Yes ☐ No

Do you want students to see the point value as they are taking the test? If so, leave the default setting of **Yes**. If you prefer that students do not see the point value for the question, select **No**.

Minimum Point Value. (Optional)

Minimum Point Value (optional)

*Points assigned
to the user for
attempting the
question

This option lets you specify a certain number of points that is awarded automatically to every user who attempts the question, regardless whether or not the user selects the correct answer.

Points deducted for incorrect answer. (Optional)

Points deducted for incorrect answer

Optional. Pertains only
to 'True False' or
'Multiple Choice,
Single Correct'
questions.

Note: With true false questions, there is an option to deduct points for incorrect answers.

Extra Credit. (Optional)

Extra Credit

☐

Selecting this option lets you mark a question as extra credit. This means that the points awarded for this question are not counted as part of the "total points" for the assessment and there are no points deducted for skipping this question or answering incorrectly. However, users answering correctly will receive the question point value added on top of their total points earned in the assessment.

Add question text.
