

How do I add an assignment?

Go to the Assignment tool.

Select the **Assignments** tool from the Tools Menu in your site.

Click **Add**.

Click the **Add** button to add a new assignment.

Give your assignment a title.

Title *

The title of your assignment should be something descriptive and unique, as this is the title students will see when they go to the Assignments tool to submit their work.

Add assignment instructions.

Assignment Instructions *

The screenshot shows a rich text editor with a toolbar at the top containing various icons for text formatting (bold, italic, underline, strikethrough, subscript, superscript), alignment, indentation, bulleted and numbered lists, link and unlink, image, video, table, and other features. Below the toolbar is a text area containing the text "Please submit your 10 page research paper." At the bottom of the editor, there is a status bar showing "body p" on the left and "Words: 7, Characters (with HTML): 50/1000000" on the right.

Enter the instructions for the assignment into the [Rich Text Editor](#). You may use the editor to format your assignment description, and add images, links, or other media if desired.

close date.

The date picker shows a calendar for April 2019. The date 20 is selected. The time 11:55 pm is selected. The calendar includes a 'Now' button and a 'Done' button.

When you create a new assignment, the Open Date will default to the current day, and the Due Date and Accept Until dates will default to one week later. Change the dates using the calendar icon to bring up the date-picker pop-up calendar.

1. The **Open Date** for your assignment is when it becomes available for students.
2. The **Due Date** is the deadline to turn in the assignment.
3. The **Accept Until** date allows you to accept late submissions after the due date (late student submissions marked as late). If you do not accept late submissions, you may leave the Due Date and Accept Until date the same.

Tip: Often, faculty like to set the time on the due date to 11:55 PM, as that is the latest time you can select on a given day. Selecting 12:00 AM will display the date as the next day, and this may confuse students about the actual due date if they assume they have all day to turn in their work.

Send a reminder email. (Optional)

☒ Send a reminder email 24 hours before the due date.

If you would like a reminder email to be sent 24 hours before the due date, check the box next to **Send a reminder email 24 hours before the due date**.

The other three options are "Send email notification with the open date to participants who have opted for it" and "Send email notification with the open date to all participants". The dropdown is enclosed in a light blue border.

If you would like an announcement to be automatically posted to the site regarding the open date for your assignment, check the **Add an announcement about the open date to Announcements** box. If you enable an announcement about the option date, you will also have the option to choose an email notification for the announcement.

Note: The announcement will be posted immediately when you post your assignment, regardless of the actual open date of the assignment itself. This option is best used to announce changes in a due date, or the availability of a newly posted item.

Single Uploaded File only

There are several submission formats that you may accept.

- **Inline only:** Student may only submit a response by entering their content into the Rich Text Editor. The attachment option is not available. This is a good option to choose if you want to be able to grade all of the responses online without having to download or open any files.
- **Attachments only:** This format removes the Rich Text Editor option and leaves only the attachment option available.
- **Inline and Attachments:** This is the default format and it allows students to either enter content into the Rich Text Editor inline, or attach a file, or both.
- **Non-electronic:** This format choice is for assignments that you expect students to submit in person, but you want the option to view assignment details and/or grade the assignment in Sakai.
- **Single Uploaded File only:** If you want students to submit a file, but you only want a single file, this is the option to choose. (Both the Inline and Attachments and the Attachments only option allow students to upload and submit more than one file at a time.)

Choose your preferred format from the drop-down menu.

1. The number of resubmissions allowed for the class
2. The deadline for resubmitting
3. Whether to notify students via email when the grade is released and resubmission is available

Tip: You may also choose to allow resubmissions on an individual basis when you grade student submissions.

Submission notification.

Submission Notification Email Options:

- ☒ Do not send notification emails for any student submissions
- ☐ Send a notification email for each student submission
- ☐ Send one email per day summarizing notifications for student submissions

The default notification setting is **Do not send me notification emails for any student submissions**. If you would like to be notified, select either of the following two options:

- **Send me a notification email for each student submission:** This option will send a separate email for each student immediately upon submission.
- **Send me one email per day summarizing notifications for student submissions:** This option will send a digest email listing all student submissions for that day.

Choose the radio button for the notification setting you prefer.

Note: The notification email message will be sent to the external email address for your Sakai user account. It does not send the notification to the Sakai Messages tool.

Choose Grading details.

The second option in the Grading section allows you to choose a specific grade scale for the assignment. There are several grade scales to choose from:

- **Points:** Allows you to assign points to an assignment for grading. This is the option you should choose if you plan to send the assignment to the gradebook.
- **Letter grade:** You may select this option if you like to grade your assignments by letter grade only.
- **Pass/Fail:** Designates an assignment as pass/fail.
- **Checkmark:** Allows you to mark assignments with a checkmark for completion.

Select the assignment's grade scale from the drop-down menu.

*Note: The only grade scale option that can be added to the gradebook automatically is **Points**.*

Within the points grade scale, there is also the option to **Send grades to the Gradebook**. Once selected, this reveals two additional options:

- **Create new Gradebook item:** This will create a new item in the gradebook with the same name as your assignment title.
- **Associate with existing Gradebook item:** This option allows you to link your assignment to an existing gradebook item. This is useful if you have already created items in your gradebook and you want to use one of them, rather than creating a new assignment. You may only link an assignment to a single gradebook item, and vice versa.

Tip: Remember that you must have a Points grade scale in order to add the assignment to the gradebook!

Use peer assessment.

The screenshot shows the 'Use peer assessment' settings interface. At the top, the 'Use peer assessment' checkbox is checked and highlighted with a red box. Below it, the 'Evaluation Period Finishes' field is set to '03/05/2020 12:20 pm' with a calendar icon. The 'Anonymous evaluation' checkbox is checked. The 'Allow students to see reviews of their submissions' checkbox is also checked. A text input field for 'Number of submissions students must review' contains the value '1'. Below these, the 'Instructions for reviewers' text area contains the text: 'Review one student submission and add a comment, constructive feedback, or a question about the submission content.' A rich text editor toolbar is visible above the text area. At the bottom, a status bar shows 'body p' and 'Words: 17, Characters (with HTML): 129/1000000'.

Within the Points grade scale, there is also the option to **Use peer assessment**. Selecting this option will allow students to review their peers' assignment submissions.

1. The **Evaluation Period Finishes** section notes the date when the last peer reviews can be submitted. (This date must be after the Accept Until date for the assignment.)
2. **Anonymous evaluation** allows students to submit their reviews without their names appearing to those they are evaluating.
3. **Allow students to see reviews of their submissions** enables students the ability to view evaluations from their peers of their submitted assignment.
4. The **Number of submissions students must review** is the total number of peer evaluations required.
5. The **Instructions for reviewers** text box allows instructors to outline specific instructions to students regarding peer assessments.

Note: You must be using a Points grade scale in order to enable peer review.
