How do I post to a forum topic?

Forums are organizational units that group topics within the site. You cannot post directly to a forum; you must first enter a topic and post your message there.

In order to post to a forum topic, you will **Start a New Conversation** or thread.

Go to Forums.

Select the Forums tool from Tool Menu in your site.

Choose a forum.

Forums

This is an example of a forum. The forum title will appear in bold and in a larger font than the topic titles indented beneath it. If you would like to view more information about the forum, you may click **View Full Description** to view any additional information provided by the site owner.

Select a topic within the forum.
