

How do I limit access to Lessons page items to groups?

Instructors can limit access (i.e., specify conditional release) to items added to a Lessons page or subpage by group.

Note: The site must have existing groups in order to limit items to groups. See [How do I create groups?](#) for more information on creating groups.

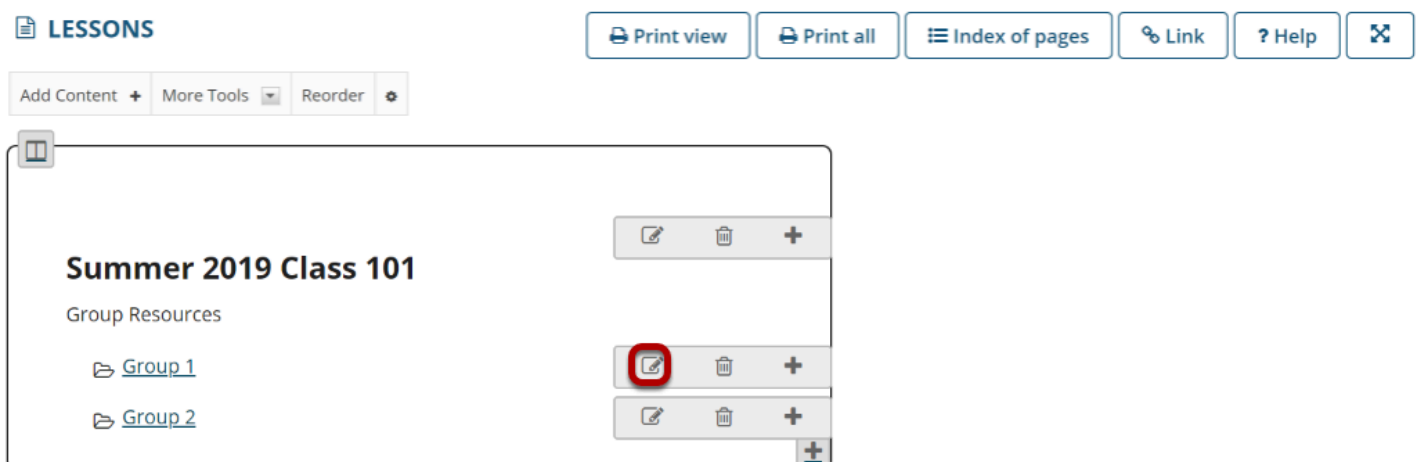

Go to Lessons.

Click on the Lessons tool in the Tool Menu to display the page.

Note: The default or blank Lessons page contains text and images that explain the basic functionality of the Lessons tool.

Click Edit.

Click the **Edit** button for the item you want to restrict to a group or groups.

Click Edit the groups for which this item should be shown.

Edit Item

Item Name

Item Description

Change Page

☐ Next page. I.e. this is assumed to be the next page in a sequence, rather than a subpage. The most visible difference is how the pages show in the breadcrumbs at the top. For a subpage, when you go to it, the breadcrumbs at the top show that it's a new level. The current page will show as the level above it. For a next page, the new page replaces the current one in the breadcrumbs.

☐ Show as button rather than link

☐ Hide page until the following date (the page will be listed with the release date)

Indent level

Custom CSS class

☐ Don't Release Item Until All Prerequisites are Completed

☐ Require This Item

Edit the groups for which this item should be shown

This will display a list of the site's existing groups.

Select the group(s), then click Update Item.
