

How do I create collapsible sections?

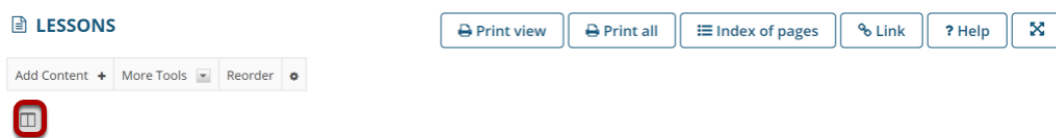

Go to Lessons.

Click on the Lessons tool in the Tool Menu to display the page.

Note: The Lesson page must already contain content before you can make a collapsible section.

Select the column properties icon in the top left of the section.

Enter a Section title.

The 'Column properties' dialog box is shown. It has a title bar with a close button. Inside, there are several options: 'Double width' (unchecked), 'Two columns inside this one, text flows between them' (unchecked), a dropdown menu set to 'None', 'Column color scheme', 'Section Title' (with 'Week 1' entered and highlighted by a red rectangle), 'Collapsible' (unchecked), and 'Start closed' (unchecked). At the bottom are 'Save' and 'Cancel' buttons.

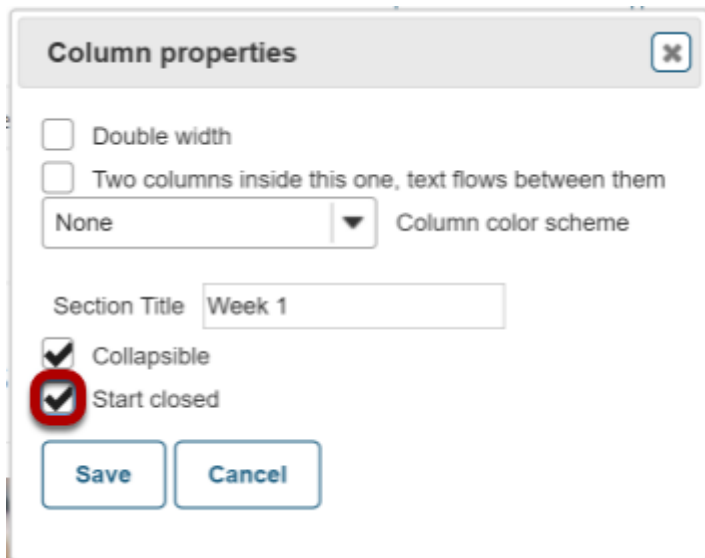

Note: Your section must have a title in order for it to be made collapsible.

Check the Collapsible box.

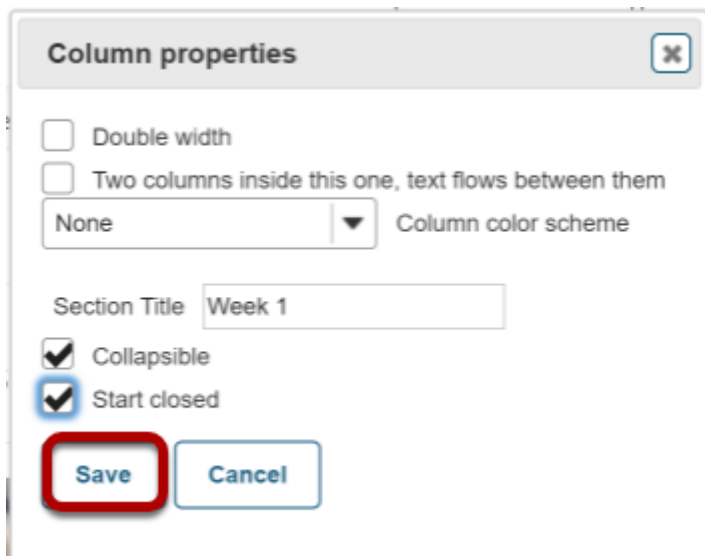

The 'Column properties' dialog box is shown again. In this version, the 'Collapsible' checkbox is checked and highlighted with a red circle. The 'Section Title' field still contains 'Week 1'. The other options and buttons remain the same as in the previous screenshot.

Optionally, you may also select the Start Closed option if you prefer for the section to be collapsed upon access.
