

# How do I rearrange or rename the items in the Tool Menu?

The Tool Menu can be customized by the instructor of the course to modify the order or appearance of menu items in the site. Tools can be renamed, hidden from students, locked, or deleted.

## Go to Site Info.

Select the **Site Info** tool from the Tool Menu of your site.

## Click Tool Order.

Click **Tool Order** from Site Info tabs.

# Drag and Drop items to rearrange the tool order.

**Tool Order**

Changes to tool order will take effect upon 'Save'. When deleting or editing a tool name, changes will take effect immediately. Click and move tool in list below, or use the keyboard to focus on the tool then use U or D keys.

Warning: Making tools invisible does not prevent access to the tool items through direct links. To prevent all access, lock the tool.

**2** **SAVE** Cancel Reset Sort Alphabetically

1. Drag and drop tools to rearrange the order of tools in the menu.
2. Click **Save** at the bottom of the screen to save your reorder.

## Sort tools alphabetically.

**SAVE** Cancel Reset **Sort Alphabetically**

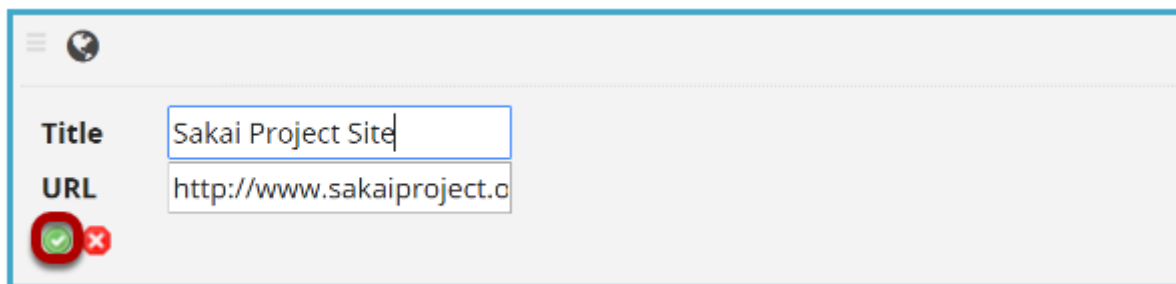

Click the **Sort Alphabetically** button at the bottom of the page to arrange all of the tools in alphabetical order by title.

## Rename a tool.

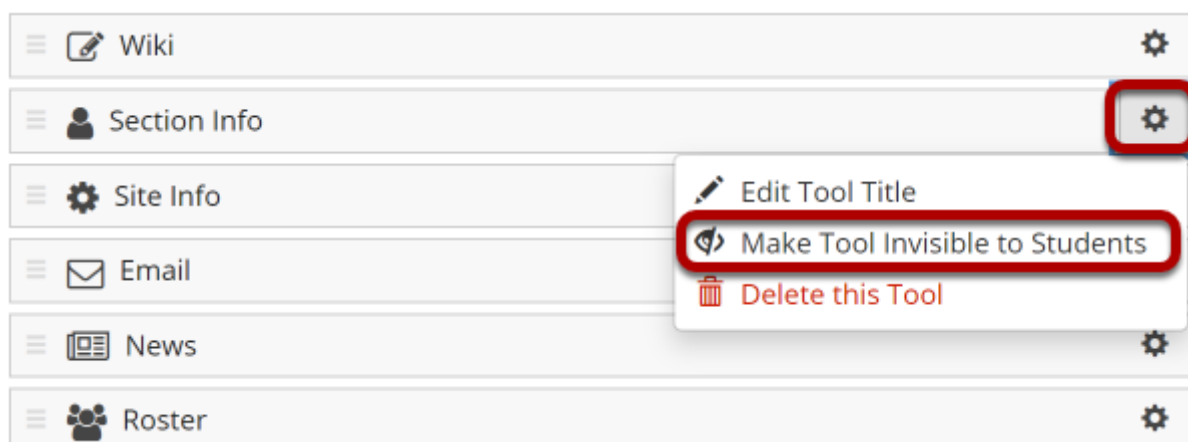

Click the gear icon to go to the tool settings. Then, select **Edit Tool Title** from the drop-down menu.

## Type the new name for the tool.

In this example, the Sakai tool was renamed as Sakai Project Site. Click the green check mark to save your changes.

## Hide a tool from students.

Hiding a tool from students allows them to access the tool from other areas of the site, but they do not see it listed in the Tool Menu.

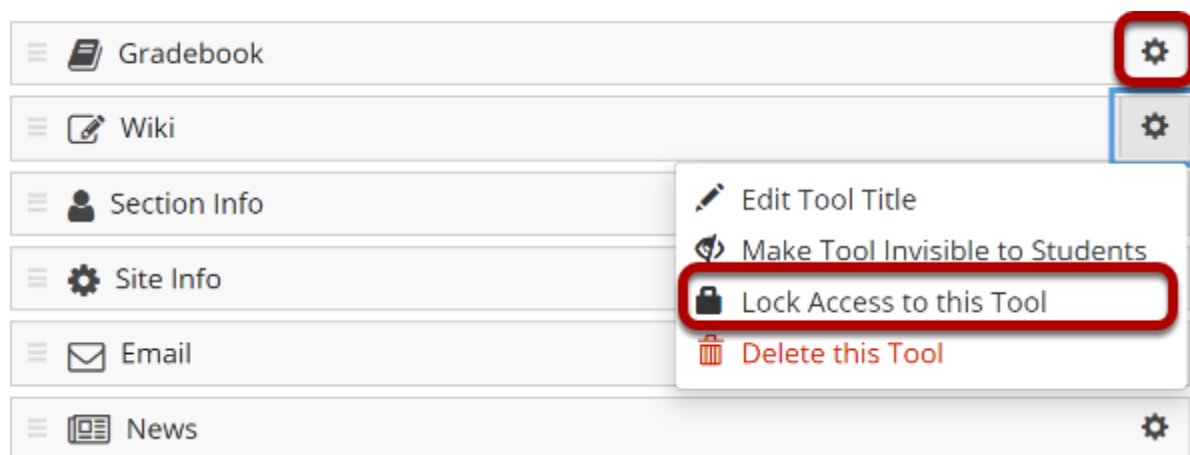

Click the gear icon to go to the tool settings. Then, select **Make Tool Invisible to Students** from the drop-down menu.

## Invisible tools are indicated by a "hidden" icon in the menu.

In this example, the Section Info tool is hidden from students. But instructors see the tool as gray and italicized with a "hidden" icon to the right of the tool.

## Lock access to a tool.

Locking access to a tool disables it for student use. Students will not see it in the menu, and they also will not be able to access that tool from other areas of the site.

Click the gear icon to go to the tool settings. Then, select **Lock Access to this Tool** from the drop-down menu.

*Note: Not all tools are lockable. If the tool cannot be locked, that option will not appear in the drop-down menu.*

**Locked tools are indicated by a "padlock" icon Tool Order list.**

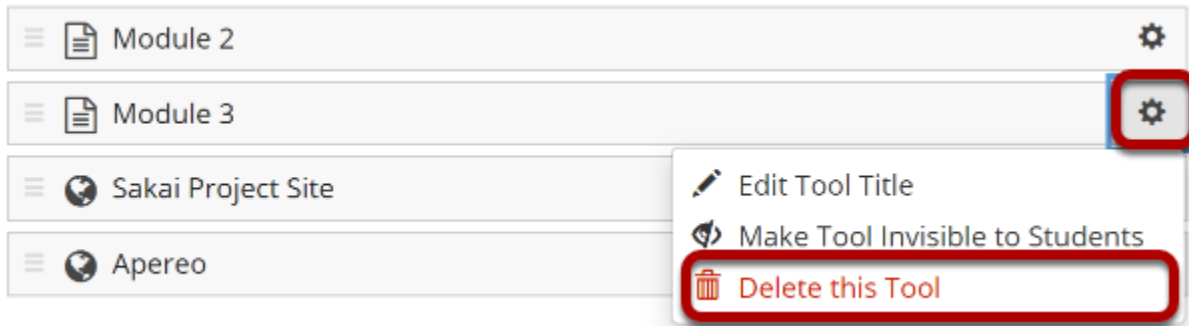

In this example, the Calendar tool is locked with a padlock icon to the right of the tool.

**Locked tools are hidden by default in the site Tool Menu.**

In this example, the Calendar tool is both hidden and locked. Instructors see the tool as gray and italicized with a "hidden" icon to the right of the tool, but students do not have access to the tool so they do not see it in the menu at all.

## Delete a tool.

Deleting a tool has the same affect as removing a tool using the [Manage Tools](#) option in Site Info. It will remove the tool from the menu and deactivate it in the site, but it will not delete any content that exists within the tool.

Click the gear icon to go to the tool settings. Then, select **Delete this Tool** from the drop-down menu.

*Note: Not all tools can be deleted. If the tool cannot be deleted, that option will not appear in the drop-down menu.*

## Save your work.

Once you have completed all of your changes, click the **Save** button at the bottom of the list.
