Global access settings allow you to decide who has access to your site once it is published.

In addition to the participants you've added, you can open your site so that anyone with a valid login can join it.

☒ Limit to official course members or to those I add manually (recommended)

☐ Allow any Sakai user to join the site

This will allow anyone (including unauthenticated users) to access the site, either through the Site Browser or via a URL link to the site.
