

How do I view statistics about a completed assessment?

You can view statistical information about student submissions to an assessment, such as average scores and standard deviation. If the assessment has automatically-graded questions, you can also access an *Item Analysis* page, which gives a quick table overview of the percentages of students who answered each question correctly, and how many students selected each answer option.

Go to Tests & Quizzes.

Select the **Tests & Quizzes** tool from the Tool Menu of your site.

Select the Published Copies tab.

View Statistics page.

The *Statistics* page displays information including the number of students who submitted the test, average scores, standard deviation, how many students selected particular responses to each question, and the percentage of students who answered an automatically-graded question correctly.

*Note: If you have allowed multiple submissions for your assessment, you may have two view options on the Statistics page: either the **Highest** or **Last Submission**, or **All Submissions**. Available view options depend on your [assessment settings](#); for example, if you accepted the **highest score** for a multiple-submission assessment, you'll see the **Highest Submission** by default. If you've chosen to accept the **average score** for all submissions, you'll only be able to view **All Submissions** on the Statistics page.*

Click on Item Analysis.

If your assessment has automatically-graded questions, the *Item Analysis* page gives a quick table overview of the percentages of students who answered each automatically-graded question correctly, how many students selected a particular answer option for each question, and how many of the students who submitted the test provided *No Answer* to that question.

*Note: If you have allowed multiple submissions for your assessment, you may have two view options on the Item Analysis page: either the **Highest** or **Last Submission**, or **All Submissions**. Available view options depend on your [assessment settings](#); for example, if you accepted the **highest score** for a multiple-submission assessment, you'll see the **Highest Submission** by default. If you've chosen to accept the **average score** for all submissions, you'll only be able to view **All Submissions** on the Item Analysis page.*
